PEOPLEpoint is feature-rich workforce management terminal for those who require extensive capabilities, expandable memory, attractive design, and a color touch screen.

With a Linux, Windows, or Android operating system PEOPLEpoint delivers rich graphics and video on a 7" widescreen display. Optional speakers and camera, a fast processor, and infinitely expandable memory will allow users to interact with detailed content. We designed PEOPLEpoint for developers who want to deploy their WFM software in a manner designed for the people who use it.

Users can easily navigate employee self-service functionality on the generously sized screen. Custom programs, training videos, video chats, web browsers, and other custom content have a new, more effective platform now. PEOPLEpoint offers exciting programming and content delivery opportunities.

FEATURES INCLUDE:

- 7" Widescreen Touch Display
- Optional Speakers
- Optional Microphone
- Optional Camera
- High Performance Processor
- A Variety of Card and Biometric Readers
- Mass Storage Memory Expansion Slot
- OS Flexibility: Supports Linux, Android, Embedded Windows
- Programming Languages Include: Java, Python, ATS Legacy Universal Command Set
- Designed for Fast Delivery of Web Services
